CALL FOR PAPERS

IEEE SENSORS 2020 is intended to provide a forum for research scientists, engineers, and practitioners throughout the world to present their latest research findings, ideas, and applications in the area of sensors and sensing technology.

IEEE SENSORS 2020 will include keynote addresses and invited presentations by eminent scientists and engineers. The conference solicits original state-of-the-art contributions as well as review papers.

Topics for IEEE SENSORS 2020 include

- Sensor Phenomenology, Modeling and Evaluation
- Sensor Materials, Processing and Fabrication (including Printing)
- Chemical, Electrochemical and Gas Sensors
- Microfluidics and Biosensors
- Optical Sensors
- Physical Sensors – Temperature, Mechanical, Magnetic and Others
- Acoustic and Ultrasonic Sensors
- Sensor Packaging (including on Flexible Materials)
- Emerging Sensor Applications
- Sensor Networks (including IoT and related areas)
- Sensor Systems: Signals, Processing and Interfaces
- Actuators and Sensor Power Systems
- Sensors in Industrial Practices
  This track is for traditional papers where the focus is on the industrial applications of different sensors. This track is only for industry, i.e. first author must be from industry.
- Live Demonstration of Sensors and Sensing Technologies

Focused Sessions

IEEE SENSORS 2019 will have focused sessions on emerging sensor-related topics. Details related to the Call For Focused Sessions is on the conference website.

Publication of Papers

Presented papers will be included in the Proceedings of IEEE SENSORS 2020 and in IEEE Xplore pending author requirements being met. Authors may submit extended versions of their paper to the IEEE Sensors Journal.

Exhibition Opportunities

The Conference exhibit area will provide your company or organization with the opportunity to inform and display your latest products, services, equipment, books, journals, and publications to attendees from around the world.
